Dear Clive,

**Working Together at BYMCA**

Thank you Clive for working with us to provide a total solution for our client.

Your ability to identify the client's needs and develop the Software to a demanding timescale was truly remarkable. This commitment enabled us to deliver our hardware solution and provide the client with an integrated EPOS and Back Office administration system.

Thank you Clive for your help. We look forward to developing further opportunities for us to work together.

Yours sincerely,
